*The driver is always responsible for paying attention to the vehicle surroundings & driving safely as there are limitations to degree of recognition & controlling performance that this system can provide. **This function is activated only for vehicles and is also activated when the vehicle's speed is within the range of approximately 5 to 180 km/h. The system assists in mitigating damage. However the braking ability varies from road and driving conditions. #For more details on the functioning of airbags, please refer to the owner's manual. ^BS6 Phase 2 and E20 Fuel Compliant.
